

Capabilities Overview

Datanet, established in 1999 and recently acquired by US-based company BringCom, is a Telecommunications Service Provider operating in Uganda and offering corporate connectivity services and cloud-based solutions. Datanet was the first company in the East African region to achieve E-Access MEF CE 2.0 Certification establishing standardized Carrier Ethernet access services in Uganda.

Datanet's customers include large multinationals, banks, insurances, logistics companies, and non-governmental organizations. Datanet is dedicated to defining the best service solution to meet your corporate requirements.

Datanet is at the forefront of the East African regional telecommunications industry expanding its MEF CE 2.0 certified network and bringing new corporate services to the market, earning the reputation for providing reliable, secure, business-grade managed networking services to customers who run critical business applications throughout East Africa.
