CONNECTIVITY

Keeping your business connected

Expertise in servicing the communications requirements for the Enterprise, NGOs, Financial (Banking/Insurance), Hospitality, Aviation, Manufacturing and Logistics sectors

Stay connected in a global market that never closes. Empowering industries with network knowledge. DataNet offers a full range of Broadband and Internet connectivity solutions to suit your business needs. Whether you are taking a fast fiber broadband package or one of our ultra-secure dedicated leased lines, you will receive a highly reliable business internet experience at a competitive price.

WITHOUT A RELIABLE NETWORK, YOUR BUSINESS DOESN'T STAND A CHANCE

CONNECTIVITY SERVICES

- Affordable domestic and international connectivity services via fiber, microwave and satellite
- Dedicated Internet Access (DIA)
- Domestic Leased Lines and International Private Leased Circuits (IPLC)
- Carrier Ethernet
- Fiber, WiFi and VSAT broadband access

SD-WAN SERVICES

- Simplified Delivery of WAN Services to Branch Offices via Software and Cloud-based Technologies (Software as a Service)
- Lower CAPEX and OPEX (software-based approach to SD-WAN and Security Functions)
- Improved Performance, Flexibility and Scalability
- Better Security
- Intelligent Pathway Control
- Automatic Provisioning

EDGE CLOUD SERVICES

- AfriQloud Platform based in Uganda for Edge Cloud Computing and Virtual Data Center services
- Offering local secure distributed and scalable Cloud services on a Pay-as-you go and Subscription models
- Delivering digital Infrastructure as a Service (IaaS) at competitive rates.
- Offering a local multi-country solution capable of performing in multi-cloud environments for companies who require local presence (data sovereignty) for privacy purposes or technological reasons.
